Wm Hopkins

?

I have delayed
replying to your note
requesting Prof. Rogers's
papers in expectation of
being in London before this
time, in which case I should
have requested you to send
them from the Geological
Society's. As my coming
to town however is now
uncertain, and as I am
anxious to see the papers
I will thank you to send

DSI

them to me at Cambridge by post, or if too bulky for that mode of conveyance by any Cambridge coach. Then an coaches daily from the Golden Cross Charing Cross, the Blue Boar Holborn and Green Dragon Bishopsgate Street.

May I request you at the same time to convey to Prof. Rogers my acknowledgements of his attention in sending me his paper.

I shall shortly have some geological memoirs of my own which I should like to present either to Professor Rogers. May I beg to know whether you would have the opportunity of forwarding them to him, if I were to send them to you.

Yours obed.t

W Hopkins

Cambridge
Sept. 15/63

Dear Sir

Geboren 1814 - 1880

Your letter reached me when very much occupied at the Meeting of the But: Assoca: and when I had no means at immediately at hand to answer it. I tak the earliest opportunity of doing so after my return to Cambridge. If I had had any copies of my paper on Geological Theories of Elevation &c" I should have much pleasm in sending you one, but you will find it in the Reports of

Br Brit: Association
for 1847.

Yours truly
W Hopkins

D.r Cranswick.

Rev. Hopkins,
Prof. Geology,
Cambridge.

HOPKINS, W

Geologist 1814 - 1880 ?

A. L. S. dated Sept. 15, 1863
